LOCAL PUBLISHER DONATES 900 BOOKS TO GIVE A KID A BOOK CAMPAIGN

GREENVILLE, WI – Local book publisher, Pen-Tech Professional LLC has donated 900 copies of the children's book ***A Different Little Doggy*** to the Brown County Library 'Give A Kid A Book' campaign. Creators of the book are local author and motivational speaker, Heather Whittaker and illustrator Scott Alberts of Alberts Illustration and Design.

The books were presented to library program manager Susan Lagerman by the author on Monday, December 16, 2013.

Perfect for children ages 4 – 8, but a book loved by those of all ages, ***A Different Little Doggy*** teaches children the importance of diversity, acceptance and friendship through the life story of the author's dog, Taz, an adorable Miniature Pinscher who was different than other dogs in many ways. It's filled with colorful, lively illustrations and a rhyming story line that truly touch the hearts of readers teaching children (and adults) if they can accept the differences between themselves and others, life can be fun!

The Give-A-Kid-A-Book campaign, sponsored by the friends of the Brown County Library, helps children discover the joy of reading by receiving a book of their own. The campaign provides books to over 5000 children throughout our area during the holidays, and a portion of the books also find their way into the hands of children through various other programs that promote reading throughout the year.

A Different Little Doggy is available directly from the publisher at www.adifferentlittledoggy.com or through amazon.com.
